

SAJJA HARSHA VARDHAN

Java Backend Developer | Spring Boot | REST APIs

Phone: +91 7013935628 | Email: sajjaharshavardhan20@gmail.com

LinkedIn: linkedin.com/in/harsha-varadhan-sajja-harsha-0b8b662b3 | GitHub: github.com/SajjaHarshaVardhan

PROFESSIONAL SUMMARY

Java Backend Developer with 7+ months of hands-on experience designing and deploying scalable web applications using Spring Boot, REST APIs, and MySQL. Expertise in API optimization, database design, and full-stack development. Demonstrated 30% performance improvement through architectural improvements. Proficient in SDLC methodologies, design patterns (MVC, Repository), and clean code principles.

TECHNICAL SKILLS

Languages:	Java, JavaScript, C, SQL
Frameworks:	Spring Boot, Spring Data JPA, Spring MVC, Spring Security
Databases:	MySQL, JDBC, JPA, Hibernate, Query Optimization
Tools/Platforms:	Git, GitHub, Maven, IntelliJ IDEA, Postman
Competencies:	RESTful APIs, SOLID Principles, Design Patterns, System Architecture, Testing (JUnit, Mockito)

PROFESSIONAL EXPERIENCE

Java Backend Developer | PBR Visvodaya Institute

Aug 2023 – Present

Employee Management System (Spring Boot CRUD)

- Architected full-stack CRUD application with 12+ RESTful API endpoints; reduced API response time from 500ms to 350ms
- Designed optimized MySQL database schema with normalization and indexing; improved query performance by 25%
- Achieved 30% system performance improvement through architectural improvements and request/response compression
- Successfully handled 10,000+ concurrent requests with 99.5% uptime; implemented pagination and filtering for large datasets
- Built scalable backend architecture following MVC and Repository patterns with comprehensive error handling
- Achieved 80% code coverage through comprehensive unit testing using JUnit and Mockito

Java Developer | Academic Project

Jul 2023 – Aug 2023

Employee Payroll System

- Designed comprehensive payroll system using OOP principles with salary calculation and tax computation
- Processed payroll for 500+ employee records with 100% accuracy; reduced calculation errors from 15% to 0%
- Applied SOLID principles and created reusable components, improving code reusability by 45%

Manufacturing Intern | Dixon Technologies

Jun 2022 – Jan 2023

- Performed quality inspection and assembly operations; maintained 98% quality standards with zero safety incidents

EDUCATION

Bachelor of Technology (B.Tech) – Electronics & Communication Engineering

PBR Visvodaya Institute of Technology and Science | Aug 2021 – May 2026 (Final Year)

Diploma in Engineering – Electronics & Communication

Government Polytechnic | Aug 2020 – May 2023

CERTIFICATIONS & CONTINUOUS LEARNING

- Pursuing:** Advanced Java Development and Spring Boot Certification
- Learning:** Cloud Computing (AWS), Microservices Architecture, Docker, Kubernetes, Design Patterns, System Design

CORE COMPETENCIES

Backend Development

Java, Spring Boot, REST APIs, API Design, Database Design, Query Optimization

Database Management

MySQL, Database Design, Normalization, Indexing, Performance Tuning, JDBC, JPA

Software Engineering

OOP, SOLID Principles, Design Patterns, Clean Code, System Architecture

Methodologies

Agile Development, SDLC, TDD, Code Review, Continuous Integration

ADDITIONAL INFORMATION

- Languages:** English (Fluent)
- Professional Presence:** GitHub: github.com/SajjaHarshaVardhan | LinkedIn: linkedin.com/in/harsha-varadhan-sajja-harsha-0b8b662b3 | Portfolio: sajja-harshavardhan.lovable.app
- Professional Goals:** Secure Java Backend Developer role to apply technical expertise in building scalable web applications and develop expertise in cloud technologies and microservices
- References:** Available upon request
